

3000 Series Strobe Beacons

3000 Series strobe beacons offer you the same features as the 2000 Series in a larger profile beacon

- Large profile with wide base and polycarbonate outer dome.
- Clear outer dome is sealed to base with "O" ring gasket for additional weather resistance.
- Inner double fresnel optic dome available in all five safety colors.
- Many models meet SAE Class 1 & 2 standards.
- Multiple flash patterns and high/low intensity control available with Models 3015 and 3022.
- Low current consumption, reverse polarity protection.
- Polycarbonate base includes combination 1" NPT pipe and concealed permanent mount.
- All models 12/24 VDC operation.
- Warranty: Whelen 3000 strobe products offer a maximum 3 year from date of manufacture warranty on all strobe power supplies, and a 6 month warranty on flashtubes. See Whelen User Direct Warranty Statement for full details.

Models 3022 - Flash-4™

- SAE Classification: SAE Class 1 Strobe Beacon (amber & clear) SAE Class 2 Strobe Beacon (red, blue & green)
- Input power: 32 watts, output power: 22 watts; 19 joules
- High/Low Intensity Feature: Manual Hi/Low operation is standard.
- Flash rate: "Flash-4" feature. All patterns standard in all beacons
 QuintFlash: 72 FPM (default pattern)
 Double Flash: 115 FPM
 Modu-Flash: 150 / 370 / 150 variable FPM
 Action Flash: A unique combination of Quint & Single Flash
 (To make a choice from the QuintFlash factory default pattern, simply cut the specified jumper on the strobe power supply)
- Amperage Draw: 2.5 amps/12 volt; 1.25 amps/24 volt

Ordering Information

Model	Description
3012LP*	15 Watt, RapidFlash™
3015LP*	15 Watt, Flash-4™
3022LP*	20 Watt, Flash-4™

Options

MMK3	90 lb. Pull magnetic mount kit, with 8 ft. cord and plug
SS	Sun Shade - black mylar stick-on dome cover for inner dome
LSK	Single lighted switch, (15 amp rated) mounted on bracket, wired and fused

Replacement Parts

DL2000*	Low inner dome
AR5DOME*	Clear outer dome
FT10A	Flash tube for models 3012 and 3015
FT20A	Flash tube for model 3022

* Replace asterisk in code and model numbers with desired color. A = Amber, B = Blue, C = Clear, R = Red, G = Green

1500 Series Strobe Beacons

Available in 2 watt or 10 watt single flash, these compact beacons are durable and dependable for light and medium duty applications. Modular design with three interchangeable parts: lens, power supply and base (Model 1510 also has a relampable strobe tube) and straightforward assembly, this high-reliability strobe is easy to service. 1500 Series strobes feature a non-corroding polycarbonate base and new "Twist Lock" dome.

Tops in economy, with great features and more value than any other strobe of similar size and cost. These are ideal when used as a flashing beacon for basic protection, position identification and presence warning, on non-construction utility vehicles and in-plant material handling equipment.

- 10/80 VDC on Model 1502; 12/24 VDC on Model 1510.
- Dome twists on and off (no screws).
- Low and compact profile.
- Weighs less than 3/4 pound.
- New universal flanged base for permanent mount models.
- Two models and two mounting options to choose from.
- Full reverse polarity protection.
- Only three interchangeable modules for easy replacement and stocking.
- Model 1502 available in amber and clear.
- Model 1510 available in all five safety colors.

2000 Series Strobe Beacons

2000 Series Strobe Beacons... Continuing to set the standards for the industry in the value strobe beacon market.

All 2000 Series Beacons offer the following standard features:

- **Fully enclosed base:** Whether you choose the sturdy polycarbonate base or the cast aluminum base model, all strobe power supplies are encased within the base itself for added protection against moisture and vibration.
- **Silicone coated power supplies:** For added protection against the elements, all strobe power supplies are double dipped in a uniquely formulated silicone mixture before being secured into the base enclosure.
- **External flange mount, internal "secure" mount, or pipe mount all in one:** All 2000 Series strobe beacons come standard with a base that allows you to either:
 - (1): externally mount the beacon with a sturdy built-in flange,
 - (2): knock out 3 holes for permanent "secure mount",
 - (3): pipe mount via a built-in 1" pre-threaded base.
- **Magnetic mount models** include cigar cord and plug.
- **New optic, interchangeable domes:** High dome strobe beacons are now equipped with the newest state-of-the-art single lens optics to optimize their light output. All beacons utilize the same low and high domes for ease of interchangeability.
- **Easy access for modular parts replacement:** After removing two screws from the outer dome, you are able to easily access either the flashtube or the strobe power supply without removing the beacon from your roof.
- **Warranty:** All Whelen 2000 Series strobe products offer a maximum 3 year from date of manufacture warranty on all strobe power supplies, and a 6 month warranty on flashtubes. See User Direct Warranty Statement for full details.
- **All models 12/24 VDC operation.**
- **Multiple flash patterns** and high/low intensity control available with Models 2015 and 2022.
- **Low current consumption, reverse polarity protection.**

Our most popular beacon with four basic models.

2000 Series has the Inside Advantage

Large diameter, 7mm xenon flash tube easily plugs in for single field replacement (U-shaped or 1-1/2" turn helix design).

Modular electronic assembly is removable as a single unit. Uses 1/2 the power of most rotating lights.

Fully enclosed, molded polycarbonate base or die cast aluminum base depending on model selected.

Tough, shatter-resistant polycarbonate double fresnel lenses provide optically correct 360° light dispersion. Available in high or low profile, in all five safety colors.

Knock-out holes in base for concealed, tamper-proof mounting.

Standard base includes both recessed 1" pipe and flat mount.

Model 2004B Series

- SAE Classification: SAE Class 3 Strobe Beacon (amber)
- Input power: 7 watts, output power: 5 watts; 4.2 joules
- Flash rate: 70 single FPM
- Amperage Draw: .5 amps/12 volt; .25 amps/24 volt
- Base Material: polycarbonate
- Available with amber dome only

Model 2012 Series - RapidFlash™

- SAE Classification: SAE Class 2 Strobe Beacon (all colors)
- Input power: 22 watts, output power: 15 watts; 8 joules
- Flash rate: 120 single RFPM
- Amperage Draw: 1.7 amps/12 volt; .85 amps/24 volt
- Base Material: polycarbonate

Models 2015 - Flash-4™

- SAE Classification: SAE Class 1 Strobe Beacon (amber & clear) SAE Class 2 Strobe Beacon (red, blue & green)
- Input power: 22 watts, output power: 15 watts; 13 joules
- High/Low Intensity Feature: Manual Hi/Low operation is standard on all permanent/pipe mount models
- An automatic Photocell Hi/Low feature is standard on 2015AP & 2015AC models only
- Flash rate: "Flash-4" feature. All patterns standard in all beacons:
 - QuintFlash: 72 FPM (default pattern)
 - Double Flash: 115 FPM
 - Modu-Flash: 150 / 370 / 150 variable FPM
 - Action Flash: A unique combination of Quint & Single Flash (To make a choice from the QuintFlash factory default pattern, simply cut the specified jumper on the strobe power supply)
- Amperage Draw: 1.7 amps/12 volt; .85 amps/24 volt
- Base Material: polycarbonate or cast aluminum

Models 2022 - Flash-4™

- SAE Classification: SAE Class 1 Strobe Beacon (amber & clear) SAE Class 2 Strobe Beacon (red, blue & green)
- Input power: 32 watts, output power: 22 watts; 19 joules
- High/Low Intensity Feature: Manual Hi/Low operation is standard on all permanent/pipe mount models
- An automatic Photocell Hi/Low feature is standard on 2022AP & 2022AC models only
- Flash rate: "Flash-4" feature. All patterns standard in all beacons:
 - QuintFlash: 72 FPM (default pattern)
 - Double Flash: 115 FPM
 - Modu-Flash: 150 / 370 / 150 variable FPM
 - Action Flash: A unique combination of Quint & Single Flash (To make a choice from the QuintFlash factory default pattern, simply cut the specified jumper on the strobe power supply)
- Amperage Draw: 2.5 amps/12 volt; 1.25 amps/24 volt
- Base Material: polycarbonate or cast aluminum

ModelDescription

2004B Series

- 2004BLALow dome, polycarbonate base, perm/pipe mount
- 2004BHAHigh dome, polycarbonate base, perm/pipe mount
- 2004BLAMLow dome, magnetic base with cigar plug and cord
- 2004BHAMHigh dome, magnetic base with cigar plug and cord

2012 RapidFire™ Series

- 2012LP*Low dome, polycarbonate base, perm/pipe mount
- 2012HP*High dome, polycarbonate base, perm/pipe mount
- 2012LP*MLow dome, magnetic base with cigar plug and cord
- 2012HP*MHigh dome, magnetic base with cigar plug and cord

2015 Flash-4™ Series

- 2015LP*Low dome, polycarbonate base, perm/pipe mount
- 2015HP*High dome, polycarbonate base, perm/pipe mount
- 2015LP*MLow dome, magnetic base with cigar plug and cord
- 2015HP*MHigh dome, magnetic base with cigar plug and cord
- 2015LC*Low dome, cast aluminum base, perm/pipe mount
- 2015HC*High dome, cast aluminum base, perm/pipe mount

2022 Flash-4™ Series

- 2022LP*Low dome, polycarbonate base, manual high/low control, perm/pipe mount
- 2022HP*High dome, polycarbonate base, manual high/low control, perm/pipe mount
- 2022LP*MLow dome, manual high/low control, magnetic base with cigar plug and cord
- 2022HP*MHigh dome, manual high/low control, magnetic base with cigar plug and cord
- 2022AP*High dome, polycarbonate base, auto high/low control, perm/pipe mount
- 2022AC*High dome, cast alum. base, auto high/low control, perm/pipe mount
- 2022LC*Low dome, cast alum. base, manual high/low control, perm/pipe mount
- 2022HC*High dome, cast alum. base, manual high/low control, perm/pipe mount
- 2022RC*High dome, natural cast aluminum riser base, manual high/low control, perm/pipe mount

Options

- MMK90 lb. pull magnet mt. kit with 8 ft. cord & plug
- CP8 ft. cord and plug only, no magnet
- SLMSelf-leveling mount, heavy duty
- LB2000L bracket for side mounting
- DCHDust cover for high dome only
- SSSun shade, mylar
- BGLBranch guard for low dome
- BGHBranch guard for high dome
- LSKSingle lighted switch mounted on bracket, wired & fused

Replacement Parts

- DH2000*High dome for 2000 Series
- DL2000*Low dome for 2000 Series
- FT10AFlash tube for models 2004B, 2012 and 2015
- FT20AFlash tube for model 2022

* Replace asterisk in code and model numbers with desired color. A = Amber, B = Blue, C = Clear, R = Red, G = Green
